M12 distributors are available in various versions.
The 4, 6 or 8 M 12 slots are in 4 or 5 pole design. The group outlet is designed as a fixed cable version, hood version for connection by the user, or with M23. Special versions are also available. For instance, there are 1-to- 1 distributors for use with any connection types, or distributors approved for Ex Zone 1.

WS markers are the perfect match for the W-series connectors. Thanks to their system compatibility, the WS tags can also be used with the l-series and the Zseries. The large marking surfaces do not only permit long character strings but also multi-line text.
WS markers are ideal for labels with long, customised character strings. Thanks to the proven MultiCard format, printing with PrintJet CONNECT oder/or Plotter is possible.

- Can be fitted in strips or individually
- Markers in proven MultiCard format

For custom printing: Please send us a file of our labeling software M-Print PRO or M-Print PRO Online (without installation) for your labeling specifications.

## Screwty ${ }^{\circledR}$ cable gland tool with torque function

## The ideal tool for any application

Screwty ${ }^{\circledR}$ is the ideal, all-purpose tool for tightening all common sensor and actuator cables. Even difficult-toreach round plugs are accessible using the Screwty ${ }^{\circledR}$. A simple turning movement tightens and loosens the connectors without the need for excessive force. The Screwty ${ }^{\circledR}$ is a unique and global solution since it fits with most cables and plugs from other vendors (over $90 \%$ ). The Screwty ${ }^{\circledR}$ consists of a handle with a conventional 1/4" adapter. Thus it can be used for all sizes: for M12 and M8 round plug-in connectors, and for M12F and M8F customisable plugs and sockets, as well as for all M23 plugs and sockets.
